

2nd International Conference On Veterinary And Livestock

March 19-20, 2021

**THEME: Innovation, Sustainability
In Veterinary & Livestock**

DAY 1
19th March 2021

KEYNOTE SESSION : I

Title: Identification and molecular detection of shiga toxin producing E. Coli (STEC) isolated from raw cattle milk in Chitwan, Nepal

Hom Bahadur Basnet, Agriculture and Forestry University (AFU), Nepal

9:00 - 9:35

Title: Beneficial of promoting duckweed as an alternative of upcoming protein source for human and animal nutrition

Lince Sihombing, State Institute for Christian Studies, Indonesia

9:35 - 10:10

Title: Amelioration of heat stress upon supplementation of fermented yeast culture in chickens through modulation of physiological parameters

N. Anand Laxmi, Directorate of Poultry Research, India

10:10 - 10:45

Title: The volatility of beef prices in Indonesia

Geertruida M. Sipahelut, University of Nusa Cendana, Indonesia

10:45 - 11:20

ORAL SESSION : I

Title: Effect of oral administration of red and yellow watermelon rind extract on feed intake body temperature and plasma metabolites in indigenous chicks

Edi Erwan, State Islamic University of Sultan Syarif Kasim Riau, Indonesia

11:20 - 11:50

Title: Recent Update in Fracture Healing

Reshma Jain, College of Veterinary Science & A.H. Mhow, India

11:50 - 12:20

Title: Technology interventions and extension activities for livestock development in Chikkaballapur District, Karnataka

Vankayala Jagadeeswary , Department of Veterinary & A.H Extension Education, Veterinary College, Bengaluru, India

12:20 - 12:50

REFRESHMENT BREAK - 12:50 - 13:00

E- POSTER SESSION

Title: Bacterial load of water used for livestock operation in elobied city of North Kordufan, State- Sudan.

Elayis A. Abubaker, University of Bahri, Sudan

13:00 - 13:20

Title: Vanadium bioaccumulation in athletic horse: blood and hair analysis

Patrizia Licata, University of Messina, Italy

13:20 - 13:40

KEYNOTE SESSION : II

Title: Outbreak of African swine fever (ASF) and its prevention and control in Indonesia

H. Agustia, University of Sumatera Utara, Indonesia

13:40 - 14:15

Title: IgY antibodies and its application in fish health management

Kuchitri Pani Prasad, ICAR-Central Institute of Fisheries Education, India

14:15 - 14:50

Title: Integrated fish farming system with animal production

Marcelein Dj. Ratoe Odjoe, University of Nusa Cendana, Indonesia

14:50 - 15:25

Title: Phylogenics in broiler chicken production

Suchitra Sena Dande, ICAR-Directorate of Poultry Research, India

15:25 - 16:00

Title: Oligopoly market structure of beef industry in Indonesia

Iwan Setiawan Tarigan, State Institute for Christian Studies, Indonesia

16:00 - 16:35

Title: Centers of beef cattle population in Indonesia

Stefanne M.C. Noach, SPP SNARMA NusaTenggara Timur, Indonesia

16:35 - 17:10

ORAL SESSION : II

Title: Protective effect of *Helix Aspersa* muller snail secretion filtrate in a mouse model of excisional

Rosalia Crupi, University of Messina, Italy

17:10 - 17:40

Title: Veterinary and livestock in Iraq

Humam Alsmabeeh, Veterinary Hospitals Association, Iraq

17:40 - 18:10

Title: Daily pattern of total locomotor activity as an objective animal welfare index in dairy cows kept in different housing conditions

Francesca Arfuso, University of Messina, Italy

18:10 - 18:40

To be Continued Tomorrow....

DAY 2
20th March 2021

KEYNOTE SESSION : I

Title: Farm animal production contributed 14.5% greenhouse gas emissions and their mitigation option strategies

Stefanus T. Temu, University of Nusa Cendana, Indonesia

9:00 - 9:35

Title: The common uses of Moringa (*Moringa oleifera*) as a human food and animal feed

Desti P. Zendrato, University of Sumatera Utara, Indonesia

9:35 - 10:10

Title: Role of the intellectual property right in veterinary science

Akhilesh Pandey, Veterinary College, MHOW, India

10:10 - 10:45

Title: The common uses of purslane (*Portulaca oleracea* L.) as a human food and animal feed

Sutan Y.F.G. Dillak, University of Nusa Cendana, Indonesia

10:45 - 11:20

Title: The practiced various forms of rice-duck integration in the world's rice producing countries in Asia

Andhika Putra, University of Panca Budi, Indonesia

11:20 - 11:55

REFRESHMENT BREAK - 11:55 - 12:05

ORAL SESSION : I

Title: Historic Achievement in Buffalo Cloning in India

P S Yadav, ICAR-CIRB Hisar, India

12:05 - 12:35

KEYNOTE SESSION : II

Title: Promoting banana scrom as an alternative feedstuff for cattle in dryland areas in many tropical countries

Upik S. Rosnah, University of Nusa Cendana, Indonesia

12:35 - 13:10

Title: Effect of Dietary Inclusion of Cumin Seed (*Cuminum Cyminum*) on Milk Production and its Composition in Dairy Cows

Ashok Kumar Patil, Nanaji Deshmukh Veterinary Science University, India

13:10 - 13:45

Title: The uses of katuk (*Sauropus androgynus*) as a human food and animal feed in many Asian countries

Ni Nengah Suryani, University of Nusa Cendana, Indonesia

13:45 - 14:20

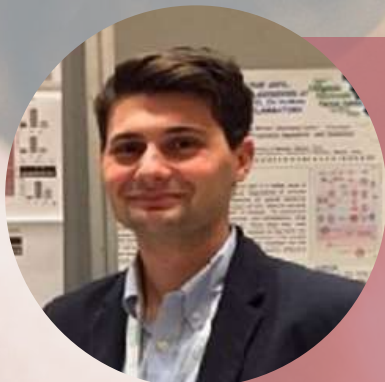

Title: The acceleration of increasing population of pregnant cows through UPSUS SIWAB or SIKOMANDAN program in Indonesia

Aloysius Marawali, University of Nusa Cendana, Indonesia

14:20 - 14:55

ORAL SESSION : II

Title: Micronized N-palmitoyl-D-glucosamine benefits interstitial cystitis – preliminary results

Enrico Gugliandolo, University of Messina, Italy

14:55 - 15:25

Title: Mycotoxins in the environment: Production, risks and potential antioxidant approaches to counter toxicity

Alessio Filippo Peritore, University of Messina, Italy

15:25 - 15:55

Title: Changes in neonatal body temperatures in different breeds of tropical goat kids

Buhari Habibu, Ahmadu Bello University, Nigeria

15:55 - 16:25

KEYNOTE SESSION : III

Title: Poultry meat is the leading global meat production in the future in many countries

Yusuf L. Henuk, State Institute for Christian Studies, Indonesia

16:25 - 17:10

Title: The role of small ruminants in Indonesia

Jacob R. Noach, University of Nusa Cendana, Indonesia

17:10 - 17:45

ORAL SESSION : III

Title: Haemato-biochemical changes in relation to type of fetus carried by dystocic mehsana buffaloes

Prakash M. Chauhan, College of Veterinary Sci. & A. H. S. D. Agricultural University, India

17:45 - 18:15

Title: Rebranding monogastrics (pig, poultry and rabbit) productions to boost agriculture as a Panacea for poverty alleviation in Africa

Sila Daniel Damwesh, Nakam Memorial School, Mangu/Panyam, Nigeria

18:15 - 18:45

E- POSTER SESSION

Title: Herbal anti-biogram with medicinal plants of Nicobari tribes against Escherichia coli isolated from Vanaraja birds in A&N Islands

T. Sujatha, Central Island Agricultural Research Institute, India

18:45 - 19:05

SESSION ADJOURNMENT
